

# Accurants - Cognitive Walkthrough

Key Tasks	Action Sequence	Screenshot	Will the user try to achieve the right outcome?	Is the correct action visible?	Is there clear connection between the control and the resulting action?	Is there sufficient and/or appropriate feedback?
<b>Primary users</b>						
<b>Create account</b>	-Click on Try it for Free		Y	Y	Y	Y
	-Fill out email adress, password, confirm password, click Yes, I agree to the Terms of Service		Y	Y	Y	Y
<b>Edit account</b>	-Click on settings		No, because I intial clicked on the profile icon in the top right, thinking that settings would be under the screen, without looking at the other options.	Y	Y	Y
	Click on Change Account Settings		Y	Y	Y	Y
<b>Add inventory/products</b>	-Click on Inventory		NO, I had to go back			
	-Click on+ (top right of screen)		NO, because there is an inventory button on the main screen, so I wathed to add the item from that page.	Y	Y	Y
	-Click on item		Y	Y	Y	Y
<b>Edit product details (pricing, description, image, etc.)</b>	-Clcik on catalog		No, because I didn't have the association with Catalog and Invetory	Y	Y	Y
	-Click on items		Y	Y	Y	Y
	-Click on the pencil icon next to the item you would like to edit.					
<b>Select items</b>	-Click on POS		Y	Y	Y	Y
	-Select an item from left side		Y	Y	Y	Y
<b>Provide Payment</b>	-Click on Pay		No, I can not move beyonding this screen, because my email service is not setup for this application			
<b>Confirm transaction</b>			No, I can not move beyond this screen, because my email service is not setup for this application
